"Tim is incredible at his job. Not only is he charm personified but the results of his work are fantastic. He's got that rare knack of being a great team player, while at the same time making everyone up their game creatively" **Stuart Murphy, Director of Programmes Sky1**

"Of all the cameramen I know, Tim consistently creates superb images with subtle and cinematic use of light. He also has the latest kit and is constantly in demand. From what I see, directors are always impressed and enjoy working with Tim" **Oli Cohen, Sound Recordist**

"Tim is a very creative DoP who brings a great eye to all the programmes we've worked on. His handheld work and lighting ability is some of the best I've seen and he is an absolute pleasure to work with. I would strongly recommend him to others" **Sarah Wood, Series Producer**

"Tim is my number one choice. Be warned, he is a perfectionist but always comes up with the goods for the edit" **James Capria, Series Director**
